

FELLOWSHIP BIBLE

See Us on the Web

Marcos has added new audio files and documents you can hear at <https://www.legacybiblepodcast.com/>

Updates made at our website at fbcjoliet.com

Staying Connected

My Office hours are in the afternoon. I will take your direct calls at that time.

If you call at other times, if I am awake I will take your calls.

If you call when I am asleep leave a voice mail and I will get back to you as soon as I can.

Phone # 815 274 8607

Email bbbbsa@sbcglobal.net

I am here for you.

Books are Coming!

My favorite Bibles to read in order are the NASB, NKJV, and NIV. For me this has been true since the 70's. Important thing is to read God's word.

What is New

More PDF's created for our web site that you can download. From these documents we can produce books for you to read.

Choruses that we sing will be reproduced with readable, print easy to sing.

In process working on finding updates from the mission field related to the people that we are supporting. hopefully the format will be usable and filled with pertinent information to help you pray for the mission.

Are you recovering

Have you noticed as we get older we put on weight. Some of us may still be close to same size we've always been but our muscle mass has declined and we have put on weight which is fat.

How are your devotions going

I have been reading my NASB and I am now 1/2 way through the NT.

I have been listening to UKNIV by David Suchet (Poirot) with an BibleGateway app you can download on your phone or visit online at biblegateway.com

I have now listened to the entire Bible. I am ready for another reader and translation.

Reading Between Sermons

We are more than halfway through our study of Colossians in the morning services.

Review:

Reread the section that we had studied.

What is the main idea of each paragraph?

How would you seek things above in an application?

So how do we counter this?

Some of you may say, "Well look at the kettle calling the pot black. Yes I also need to counter weight gain.

I have been successful with recumbent bicycling. The last couple months I have cut down a lot of my snacking, my weight is going down. Not that you'll notice yet but it is. We need to keep using our muscles so I encourage you to explore senior fitness with resistant training and finding ways to move. There are a lot of benefits as we do this. Start where you are and improve overtime. Don't get discouraged. My loss to date 40 lbs. (Over a two year period)

I will let you know when I lose another 10 pounds.

Recovering as you get older takes longer. Be patient and be kind to yourself with self talk. Don't beat yourself down.

Daytime Bible Institute

I will be teaching and recording classes for an online school. I hope to connect with others to provide college level classes to help others training for ministry. If you like to participate in filming, recording, transcribing or be a live audience to ask questions etc. The day time may be easier to visit.

Classes

- 1st Year Theology
- Bible Study Methods
- Teaching Techniques of Jesus

Time to be determined

We will hope to transcribe and update recordings from pastor Rains classes.
